

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 1

THE BLAIRMORE ENTERPRISE THURSDAY, JANUARY 7, 1926

BLAIRMORE CHAMPS WIN FIRST GAME

The opening game of the Junior League, between Bellevue and Blairmore Tuxis Juniors on the local arena Friday night last, was without a doubt the classic display of hockey seen here in years.

The one-sided score, 7 to 0, was no criterion of the contest, for both goals were continually bombarded, and the fact that Blairmore blanked out their opponents can in a large measure be attributed to the impressive goal keeping of Davis Kemp and the defense of Houbrega and Vanduren. The forward line, Oakes, Evans, Anderson, McVey and Hornquist all starred.

The Bellevue boys put up a splendid game, but were unsuccessful in scoring.

The ice was in splendid shape and the attendance was a record one for junior hockey.

Walter Scott acted acceptably as referee and perhaps no better word could be said for the competing teams than that only two minor penalties were necessary.

COSMOPOLITAN MAKES DINING ROOM CHANGE

Jack McCuaig, of Macleod, has taken over the kitchen and dining room of the Cosmopolitan hotel and started in on Tuesday of this week with Mrs. McCuaig assisting him.

This change is an assurance of a marked improvement in the general cuisine of that ever popular institution.

We understand that in addition to his plan for real home cooking, the new manager will make a specialty of club breakfasts and Sunday dinners.

Mr. McCuaig will be remembered by many as one of the first chefs at the Greenhill Grill.

We welcome Mr. and Mrs. McCuaig to our community again and bespeak for them the good patronage they deserve.

Our Hillcrest correspondent seems to object to the size of Houbrega on our junior team. But, what about Jim Hansen on the Bellevue senior lineup. When Jim's there, you can't see the rest of the team.

FIRST LEAGUE GAME A WIN FOR BLAIRMORE

Blairmore's first appearance in the 1925-26 schedule, on the local arena on Tuesday night against Bellevue resulted in a victory for the locals to the tune of 7 to 2. Bellevue was somewhat weakened, owing to the absence of Anderson, who is on the wounded list.

Blairmore's lineup was: Ennis, goal; Hanson and Wheatley, defense; Pruden, MacKay, Veiprava, McLeod, Dicken and J. Wheatley, forwards. Bellevue's lineup: Colgrassa, goal; Barbour and Allsop, defense; Hansen, Matison, B. Fisher, E. Fisher, Blake and Hall, forwards.

The game was refereed in good style by W. W. Scott, of Blairmore. Though the ice at times was rather sticky, yet the game throughout was fast and snappy. No scoring was done in the first period, but MacKay opened the scoring early in the second period with a fast shot. In about half a minute Hansen evened up and from then on the game seemed livelier. Barbour, the local reliable, was in good form, but missed his side-kicker Anderson, for effective work. Blairmore's goals were netted up by: MacKay 2, Veiprava 1, Veiprava-Dicken 1, McLeod 1, W. Wheatley 1, Dicken 2. Bellevue's by Hansen 2.

PYTHIANS AND SISTERS TO HOLD JOINT INSTALLATION

The members of Greenhill Temple No. 10, Pythian Sisters, and Livingstone Lodge No. 22, Knights of Pythias, will meet in joint session tomorrow night in the Lodge Hall for the purpose of installation of officers. The meeting will open at 8 o'clock sharp.

Following the installation, a banquet will be served, to be followed by a social.

One of our local police officers was shocked the other day at seeing one human being shaking hands with another.

INSPECTOR'S REPORT CANNOT BE PUBLISHED

Blairmore, Alberta, January 5, 1926. Editor Blairmore Enterprise:

Dear Sir: Replying to a request made by a ratepayer in the last issue of your paper, that the high school report be published, I wish to point out to the ratepayer above mentioned, and to Mr. Wheatley, that according to Section 110 of the School Ordinance, the inspector's report should not be published in the newspapers. If the school boards did such a thing, you can readily see how unfair this would be to the students and teachers.

As the inspection referred to took place after the new staff had been teaching but thirty-one days, had the report showed the school to be in an adverse condition, the reflection would be on the old staff, which, coupled with the extremely poor results of the June examination, would not help them in their plight. The fact that the inspection took place on November 4th, and that the report did not reach the Board till December 24th, is good evidence that the school was satisfactory. In fact, the inspector classified one room as "fairly good," the other as "very fair."

I might also add that the inspection covered two half days and not two and a half days, as stated in your paper.

Thanking you for space, I remain, yours truly, L. DUTILL, Chairman.

SEASON'S CURLING RINKS

At a well attended meeting of curlers held at the Greenhill hotel on Friday evening last, the following rinks were chosen for the season 1925-26:

- Murche's J. Shaffer.
- Dr. J. Olivier, skip; G. A. Passmore, J. R. McLeod, S. Knappman.
- D. G. Mackenzie, skip; M. H. Congdon, W. Barnard, G. Evans.
- J. Jenkins, skip; M. G. Rhynas, J. M. Rothney, M. Jetti.
- H. N. Schweigert, skip; H. Carmichael, A. Morency, Rev. P. J. N. Cosman.
- A. E. Ferguson, skip; Jack Scott, M. Hamilton, P. McPherson.
- L. L. Morgan, skip; H. M. Bennett, E. Hinds, M. Jensen.
- J. H. Farmer, skip; A. Baatyshyn, W. Fisher, A. Derbyshire.
- J. Hughes, skip; A. J. Kelly, J. E. Gillis, W. J. Bartlett.
- W. H. Chappell, skip; F. Wheatley, Jr., H. Pinkney, J. McPhail.
- Geo. Sangster, skip; F. M. Thompson, W. L. Evans, J. Stevenson.
- J. A. Kerr, skip; F. A. Wallace, R. Gray, J. Hall.
- J. E. Upton, skip; E. A. Harper, E. Muncester, P. Wasonock.
- J. V. McDougall, skip; A. Shearer, K. G. Craig, R. Owen.
- J. P. O'Neill, skip; W. Thomas, C. J. Tompkins, E. Blais.
- J. B. Wilson, skip; P. Montalbetti, W. Goddard, J. Clark.
- Spares—J. R. Smith, H. H. Griesbach, M. Plette, Rev. W. T. Young, J. W. Gresham, A. Cargill.

CHURCH OF ENGLAND

St. Luke's, Blairmore. Sunday, January 10th, 1926. Epiphany I. 11 a.m.—Holy Communion. 2 p.m.—Senior Catechism. 2.30 p.m.—Junior Catechism. 7 p.m.—Evening Service. H. Laurence Nobbs, Priest-in-Charge. There will also be Morning Prayer, followed by Holy Communion, at Bellevue at 11 a.m.

A large number of local folks journeyed to Coleman on New Year's Day to hear the Rhedda Welsh Male Glee Singers.

ALLIANCE FIGHT FOR RECOGNITION TO CONTINUE

D. M. J. Conway returned Sunday morning from Calgary, where he had been attending sessions of the executive of the Alberta Teachers' Alliance. We understand that a decision was reached in connection with the Blairmore controversy to effect that the "displaced" staff will stay intact with the fight to a finish, until their just rights are achieved. They have not to worry over financial assistance, for in addition to provincial aid, substantial cheques are coming in from branches of the Canadian Teachers' Federation throughout all Canada, particularly from Ontario, which provincial body sent in two cheques amounting to nearly \$1000 during the past two weeks. Towards the conclusion of the Calgary meeting, the executive allowed the members of the "displaced" staff a two weeks' furlough.

"UNCLE TOM'S CABIN" WINNING

Ask your parents or grandparents the first play they ever witnessed and invariably the reply will be "Uncle Tom's Cabin." Palmer's spectacular production of Harriett Beecher Stowe's classical drama, "Uncle Tom's Cabin," will be given in all its splendor at the Blairmore opera house on Saturday evening, January the 9th. This company with all special scenery for the entire production, including the famous ice scene, the rocky pass, Legree's plantation, the St. Clair home, the log cabin of Uncle Tom, and the grand transformation, showing Eva in heavenly realms, will no doubt be well received.

See advertisement elsewhere in this issue, also bills. Tickets on sale at W. A. Beebe's.

Successful Colonization Means Increased Immigration

The continued development, progress and prosperity of Canada is dependent upon a continuing increase in population, and having now entered upon the second quarter of "Canada's Century" it is of prime importance to them and their country that all Canada take a keen and active interest in promoting this, the Dominion's first and greatest asset.

It has, however, become increasingly evident during the past few years that the problem that confronts Canada in the field of immigration is not so much immigration itself as colonization. If the Federal Government and Parliament saw fit to take down all the bars to immigration there is hardly any question but that very large numbers of people from European countries would come to Canada. But it is open to serious question whether an unrestricted inflow of people would be in the best interests of the Dominion, or of these incoming people themselves.

Neither Government and Parliament, nor Canadians in general, are of the opinion that such an unrestricted inflow of people would be desirable. The opinion still prevails, and wisely so, that there must be selection of immigrants, although it is now recognized that there can well be, and ought to be, some relaxation of the restrictions imposed during these years immediately following the war.

While, therefore, immigration regulations will undoubtedly be modified, and efforts put forth to secure a larger number of people in this and succeed, for years, the main effort of the Dominion Government, transportation companies, and all bodies primarily interested in the settlement of our vacant areas, will be in the direction of successful and therefore permanent settlement; in a word, the promotion of colonization rather than the mere encouragement of the immigration of people to Canada.

Past experience establishes the wisdom and necessity of such a policy. Carrying it into effect, however, cannot be left solely to Government. It will call for the active interest and participation of the whole people of Canada, and may well constitute one of the major activities of all organizations such as Boards of Trade, Canadian Clubs, the various service clubs, farmers' organizations, churches, Community Clubs, and all kindred organizations.

Successful colonization means the placing of new settlers in districts where their labors will be crowned with success, where their surroundings and neighbors will be congenial, where they will not lack the essentials necessary to the making of happy, prosperous, contented homes.

To cite one example. Late in 1924 the Swiss Settlement Society was organized in Canada under a Dominion Charter with headquarters in Montreal, with the object of encouraging Swiss settlement in Canada. This Society, in its first year, has been markedly successful in securing the support, financial and otherwise, of prominent people throughout the Dominion, in Switzerland and the United States. It is engaged in getting in touch with all Swiss now resident in Canada and ascertaining the measure of their success here, the problems which confronted them and how they were overcome, the problems and difficulties still to be overcome. The Society aims to help them, but at the same time to make known to prospective immigrants from Switzerland the recent experiences of those who have already settled in Canada, and to help them in all possible ways to succeed. That is, there is an organized Society to which all Swiss in Canada can turn for helpful advice and assistance.

References may be made to another development which is bound to have a permanently beneficial effect on the Dominion, and that is the work of the Canadian Red Cross Society, aimed at the improvement of health, the prevention of disease, and the mitigation of suffering. In its efforts in these directions it had taken particular notice of the need of nursing care for expectant mothers and children, and sick and accident cases among the new settlers in remote and pioneer districts where doctors are few in number and far apart from the settled homes, and where as yet the population is too small to warrant the establishment of hospitals. In such districts the Red Cross is establishing Nursing Outposts with fully qualified nurses in charge. Over thirty such Outposts have now been established by the Red Cross in Alberta, Saskatchewan, Manitoba and Northern Ontario. Others are being opened as rapidly as the funds of the Red Cross will permit. Recently an English nursing association donated funds for the equipment of two additional Outposts in Saskatchewan in districts into which British settlers are now going.

These are real moves calculated to promote permanent and successful colonization. Such societies as the two cited, and others that might be mentioned have the same object in view, are deserving of the cordial sympathy and hearty support of the people of Canada. They are helping to make Canada, and to bring about the realization of the prophecy that the "Twentieth Century belongs to Canada."

Successful colonization means not only retaining the settlers who do come, but it means larger immigration because an ever increasing number of people will come to participate in the success of these others. Thus will Canada grow and prosper as it ought to do and as Nature by her varied and bountiful gifts intended it should.

Six-Foot Lizard

A live specimen of the Varanus or monitor lizard has arrived at the London Zoo from Sumatra. It measures from its feet to seven feet from tip to nose and has a tongue that is black for the greater part of its length of 15 inches.

Plants Have Muscular Power

New and definite evidence that plants have muscular powers has been announced by Sir Jagadish Chandra Bose, the famous Hindu scientist of Calcutta, who is already responsible for many valuable discoveries in connection with plant life.

Children Cry for

Fletcher's CASTORIA

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless - No Opium. Physicians everywhere recommend it.

Arabs Using Autos Instead Of Camels

Sheiks Find Them Practical in Raising Enemy Tribes

American enterprise, which has already put the sheik on the map, is now putting him into a Ford. For countless centuries, says a London Morning Post dispatch from Baghdad, the Arab has relied on the camel as a means of traveling the wide spaces which separate one desert encampment from another.

But in this century of change the time-honored "ship of the desert," as the camel is called, is being replaced by the motor car, for one of the Iraq tribes recently carried out a raid against another in Syrian territory by means of three Ford cars.

The tall, bearded figure of Ali Al-Fawar, sheik of the tribe concerned, has frequently been seen in flowing Arab dress driving his Ford in the streets of Baghdad. The discovery of the martial race to which the Ford can be put has, in the eyes of the Bedouins, robbed a once mental task of its shame.

THE CHEERFUL WOMAN

Is One Who Has the Rich Red Blood of Good Health

The fact that one woman is bright-eyed, rosy-cheeked, strong and cheerful, while another is pale, weak and depressed, is the more often due to the condition of the blood. The way to remedy this depressed state is to build up the blood, and for this purpose there is no tonic can equal Dr. Williams' Pink Pills. A case in point is that of Mrs. Melvin Abner, Gravelly street, Vancouver, B.C., who says: "About two years ago I was a very sick woman. I seemed to be wasting away and getting thinner all the time. I grew so weak that the doctor sent me to the hospital, but the treatment there did not help me, and I returned home. I took a number of tonics, but no better results. At this stage my mother—come to me, and as she is a firm believer in Dr. Williams' Pink Pills, she started me on this medicine. I can only say that they did wonders for me. I began to get new health and strength after I had taken a few boxes, and day by day this improvement continued until I was again well and able to do all my household work, and I have not had a sick day since. I have not only recommenced my work, but I urge those who are looking for health and happiness to give them a try. You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

New Design For Aeroplane

Machine With Central Engine Room Being Built As Experiment

An aeroplane has been designed, the chief feature of which is a central engine room. As it is an experimental type, only two 450 h. p. Napier Lion engines have been fitted, but, pursuing the same lines of design, the experts declare that there is no reason why a dozen or even more engines should not be fitted into a machine able to take them. (They are in it the fore-runner of the type of jet liner which, when flying has become more fully developed, be flying regularly between London and New York. This experimental craft, which is known as the Bombo-Napier, has been under design and construction for between two and three years.

Canada First

Leads the World in Increase in Agricultural Production

"Of all the agricultural countries of the world, Canada stands first as regards ratio of increase of production in the past twenty-five years," said Dr. J. H. Gladstone, deputy minister of agriculture. "What production in 1922 was over 500 per cent, greater in yield than in 1900; oats, 200 per cent; barley, 500 per cent; rye, 600 per cent; forage, 200 per cent; hay, 100 per cent; horse breeding, 125 per cent; beef breeding, 100 per cent; swine, 80 per cent; and poultry, 180 per cent."

Would Revise U. S. Immigration Laws

Revision of the United States Immigration law to remove entrance in excess of quota limitations of skilled agriculturists, was urged before the House Immigration commission by Hugh McCrae, of Wilmington, N.C., who declared such modification would produce many benefits to farming.

Shot New Species

"What is the name of the species I have just shot?" demanded the amateur hunter of his guide.

"Well, Mr. Smith," returned the guide, "just been investigated and he says his name is Smith."

Mrs. Benjamin. "There's a rift in the lace."

Benjamin. "Don't bother me about it; get a plumber."

A girl can always tell when a man is in love with her by the way he looks at her when she isn't looking.

Secret Of the Air

Dutch Passenger Monoplane Vanished Completely, Leaving No Trace

A group of "air express" pilots in London, some about to begin and others having just completed flights at 100 miles an hour between London and the continent, were discussing the strange things that have happened in aviation since men first flew.

They agreed that for sheer mystery no case equals that, which threw a gloom over the London air station not long ago.

A Dutch passenger monoplane ascended one afternoon to make its scheduled flight to Amsterdam. An experienced pilot was in charge, and the weather was not unfavorable. There were no circumstances to cause anxiety.

Yet from that day to this there has been no news or trace of that machine. It simply went into the air and vanished. It never landed anywhere.

The only theory experts can advance is that while on the cross-Channel flight, the engine failed and the plane fell into the water. Unfortunately it was not fitted with wireless, so the airman had no chance of broadcasting an "S.O.S."

It is strange, however, that no trace of the machine was ever found. Nor were any of the bodies retrieved.

Swiss Colonization in Canada

Sending Out Questionnaires to Swiss Working on the Land

The Swiss Settlement Society, which, as our readers remember, was formed for the purpose of establishing Swiss immigrant farm help in Canada as settlers on their own account in settlements congenial to them, is sending out at present an interesting pamphlet and questionnaire to the Swiss working on the land.

The questions asked aim comprehensively at the points of the problem which vitally interest the prospective settler, and which will enable the society to give him intelligent assistance in his quest.

Pamphlet and questionnaire can be obtained from Fritz Beck, Secretary of the Society, 11 Bishop St., Montreal. Western writers, care of P. Immigration Hall, Winnipeg.

Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and, at times, I could not be left alone by myself. My trouble was caused from overwork and worry, having been left alone with a large family. I had tried everything without any relief, but I know, to-day, that I would have been a nervous wreck but for your wonderful

SUNDAY SCHOOL LESSON

JANUARY 10.

FIVE MEN BELIEVE ON JESUS

Golden Text: Behold, the Lamb of God, that taketh away the sin of the world. John 1:29.

Lesson: John 1:19-51.

Devotional Reading: Isaiah 53:4-12.

Explanations and Comments

The Writings of Andrew and John, verses 35-38.—On the morning after his conversation with the deputation of priests and Levites from Jerusalem who came to ask if he were the expected Christ (verses 19-28), John the Baptist, the herald of the Christ, ministered out Jesus to his disciples as the Lamb of God that taketh away the sin of the world (verses 29-34). Again, on the morning after that, two of the Baptist's disciples, Andrew and probably John, were standing with him when he saw them in the distance and said to them, "Behold, the Lamb of God!" (The word Lamb is used for Christ about seven times in the book of Revelation and indicates sacrifice.) The Baptist's words suggested to his disciples that they follow the greater Master.

When Jesus turned and saw the two following him, he said to them, "What seek ye?" He opened their search because he wished to fill it, observed an ancient writer.

The Proven Asthma Remedy. Since asthma existed there has been no lack of it. It simply went unremedied, but they have proved short lived and worthless. Ever-growing reputation of Dr. J. C. Williams' Asthma Remedy has placed it a place in the field of medicine which no other can approach. It has been cured by a new method, but has simply gone on offering relief and making new converts.

Loss Naturalization Papers

Fortteen Aliens Lose Canadian Citizenship For Various Causes

Fourteen certificates of naturalization of aliens in Canada as British subjects have been revoked by order in council.

Those whose certificates have been cancelled, it was learned at the secretary of state department, include two Germans, one Austrian, two Russians and a number from various parts of Central Europe.

Conviction of criminal offences, carrying with them deportation, is the reason given for revocation in two instances. In the other cases, false representation in procuring naturalization or fraud is the cause of cancellation. The majority of the aliens affected have already left Canada.

Saskatchewan Egg Pool

Proposed Egg and Poultry Pool Is Now An Assured Success

"Present indications are that the Saskatchewan egg and poultry pool is an assured success and that the pool will be functioning by the time eggs start to move in the spring," declared G. F. Edwards, chairman of the provincial board of directors.

Over 4000 contracts have already been signed and they are being received at the pool headquarters in Regina at the rate of about 100 a day. It is estimated that the production already under contract is in the neighborhood of one billion dozen eggs a year.

Must Not Use Name For Trade Mark

Name Of President Hindenburg Of Germany Is Protected

A dispatch from Berlin says President von Hindenburg's name may not be used as a means of glorifying salads, stomach bitters, insect powder, coffee and other wares.

The Reich's patent office has declared that as a trade mark the name Hindenburg must not be used. By application to the patent office prominent public persons may be protected against the use of their name as advertising.

For Both House and Stable—There is a good deal of similarity, physically, between human beings and the lower animals. Both are subject to many ailments arising from indigestion and all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Instantaneous Awards Completed

"Laudible" Awards have now been completed, and victims of the sinking of that ill-fated vessel, May 7, 1915, 395 in number, have been allotted the sum of \$15,145,000.

Minard's Liniment relieves headache

What Pretty Girl Did for Sick Stomach

Mrs. E. Rich of Brooklyn, N. Y., writes: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—so saying nothing of headaches."

"I never thought of using Carter's Little Liver Pills until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach feels back I follow with Carter's and have the last word."

Recommended for sale by all drug stores, 25c.

Alberta Corn Growers

Acreage Devoted to This Crop Is Rapidly Increasing

Recent successes of Medicine Hat corn growers at the provincial exhibition held in Lethbridge, amply prove the suitability of this district for corn growing. The acreage devoted to this crop in Alberta has made great strides in recent years. In 1919 only 300 acres in Alberta were planted to corn. In the following year the acreage increased to 7,000; in 1922 to 15,500; in 1923 to 52,000; and last year to 85,000.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Civilized nations are those that feed the need of protection from the savagery of one another.

PREPARING FOR THE OPENING OF PARLIAMENT

Ottawa.—A cabinet meeting will be held to prepare the speech from the throne, with which parliament is to be opened formally on Friday, following the election of a speaker on the day before. Sub-committees of the cabinet have been dealing with a number of matters which, if concurred in, will be presented in the official utterance placed in the hands of the governor-general. Although there is no announcement concerning it, reasons exist for believing that a measure establishing a system of rural credits will be presented; that an immigration policy will be outlined and possible reduction of taxation indicated along with an alternative vote bill, the main estimates and some legislation in keeping with the advanced programme. While, under the circumstances, it is probable, it may not be extensive, the programme of legislation will be an average one and the government's uncertain position will not influence the character of the proposals.

Parliamentary support is forthcoming, as is commonly expected, if not they will go into the discard. As parliament draws near, the deepening impression is that the government will be sustained by a narrow majority. Whether, in that event, business will be proceeded with or an adjournment made for purposes of cabinet adjustment is a matter which is not clear and is likely to depend upon the parliamentary situation as it develops. The general expectation, however, is that some recess will be sought, although members from distant points will not take kindly to it.

In the morning, conservative members, again leading, on the initial order papers with all sorts of questions and motions for returns, each of which have a bearing upon subjects discussed in the campaign.

Want Better Rate On Alberta Coal

Premier Ferguson Says \$7.00 Per Ton Highest Ontario Can Stand For Freight

Edmonton.—Better freight rates on Alberta coal shipments to Ontario points will be discussed by Premier Ferguson as one of the items on the programme for his eastern trip.

The premier said, when asked about the resumption of the shipments to Ontario at the \$7 freight rate that there is still a balance of about 7,000 tons to be shipped under the temporary arrangement with the Canadian National Railway and that he understands the way to be clear now for this remaining portion of the quota to go forward. As soon as the mines are ready, according to a reported statement by Sir Henry Thornton in the east, the special reduced rate will be resumed to the extent of the uncompleted tonnage still to be shipped.

Toronto.—Premier Ferguson expressed the opinion that the Dominion railway board should fix the freight rate on Alberta coal to Ontario at \$7 per ton. "If the railway were ordered to carry Alberta coal the Ontario Government would aid in its distribution and guarantee the freight to the railways," said the premier. He said \$7 was the highest rate such coal could stand, and that such coal already received here had proved highly satisfactory.

Alberta Coal For East

Railway Prepared To Resume Shipments At Any Time

Toronto.—The Canadian National Railway is prepared to commence the movement at any time of the 5,000 or 7,000 tons of Alberta coal which is the balance of the 25,000 tons agreed upon in the summer at the \$7 a ton freight rate. Sir Henry Thornton, president of the C.N.R., has informed the Ontario government in replying to communications on the matter.

As to the suggestion that the special rate of \$7 should be extended to further supplies of Alberta coal over the 25,000 tons, Sir Henry replied, according to Hon. Charles McLean, minister of mines, that he did not think there was any immediate necessity for moving an additional amount, but that he was keeping in close touch with the situation.

Urge National Meet

Winnipeg.—The calling of a national conference to discuss the use of a Trusts Bill in the Dominion is being urged by the National Boys' Work Board. It was urged in a feature resolution adopted by the fourth Manitoba Trusts Board Parliament here.

W. M. L. 1610

Says Wheat Advance Was Necessary

Not Retaliation For Rubber Prices

Chicago.—Economic laws and not retaliatory measures are responsible for an increase in the price of flour in Great Britain, millers of the United States have replied to British suggestions that the wheat merchants of this country are seeking revenge for British rubber monopoly.

The present wheat price increase is its immediate cause in the wheat shortage in Argentina, said J. J. Gibson, president of the Washburn-Crosby mills at Minneapolis. It was explained that the effect was world wide and not confined to Britain, which was surprised by an unexpected rise of two shillings in the price of a 250-pound sack of flour.

Cables from London said that the flour increase had aroused considerable adverse comment because of the fact that the government statistics indicated a world surplus of wheat, and that the subject would be handled by the Master Bakers' Protective Society.

A member of this organization was quoted as saying that: "American wheat merchants, knowing that the British authorities have the whip hand in rubber, are retaliating in wheat."

Homeless Children Arrested in Moscow

Gangs of Waifs Stage Holdups in Russian City

Ufa.—Four boys, aged 12 to 15, have been arrested in Moscow for organizing a raid by homeless children on the Lubianka Christmas market at Moscow. The attack occurred at noon on the day before Christmas when, at a signal, thirty street urchins began plundering the market, which is located in a square in front of the Cheka headquarters.

A riot developed of such proportions that mounted police were called. The police report the arrest of another group of 15 homeless children found living in a frozen sewer emptying into the Moscow River in the heart of the city.

The spots of the boys and girls ranged from 10 to 16, and the leader was a 15-year-old orphan. The children were arrested after staging numerous robberies on the river embankment.

A week ago ten youthful kidnapers, all under 16, were reported for kidnapping better dressed children and stealing their clothing before liberating them near police stations.

Marriage Of Prince Being Discussed Again

Niece of Sweden's King Is Latest Queen of British Society

London.—British society is again speculating as to whether a possible bride has finally been found for the Prince of Wales.

The speculation follows an announcement that the first daughter, niece, of the King of Sweden, who is immensely popular with King George and Queen Mary, is to be a guest at Buckingham Palace as soon as the period of court mourning for the Dowager Queen Alexandra ends.

Astid, who is twenty, is one of the prettiest younger members of European royalty. She has attractive personality, is a splendid dancer, is fond of country life and sports and is well versed in domestic science.

She is a daughter of Prince Charles and Princess Ingeborg, being a grand niece on her mother's side of the late Dowager Queen Alexandra.

Pay Montana Banks Close

Helena, Mont.—Four banks, two of them national institutions, closed their doors in the last 24 hours, the state bank examiners' office announced.

The institutions were the State Bank of Nassau, the First National of Malta, the Valley County State Bank of Hialeah, and the Glasgow National Bank. The banks had a total capital stock of \$185,000.

Allies Quit Bulgaria

Sofia.—Premier Tanassof has been notified by the allied representatives that the allies will withdraw their military control commission from Bulgaria in the immediate future. This decision has been taken as the result of a report to the council of ambassadors that all the military provisions of the peace treaty with Bulgaria have been complied with.

To Pay Direct

Ottawa.—The British Government will pay pensions to its war veterans now resident in Canada direct after March 1 instead of through the Canadian department of civil re-establishment. This applies also to Canadians who served in British units and draw pensions and other awards from the Imperial Government.

Sending Ore To Smelters

Hundred Tons From Flin Flin Mine to Be Tied in Denver

The Pan, Man—Forty four Navigation Company's teams arrived here loaded with 50 tons of Flin Flin copper, gold, silver ore for immediate transshipment to Denver, Colo., smelters.

Another 50 tons will be brought in by these teams as soon as they can return.

Upon the experimental metallurgical tests of the 100 tons of ore, which is an average sample of the property, will largely depend the extent of this summer's development of the Flin Flin mine.

While previous tests have proven satisfactory, yet the final work of determining whether or not on a large scale an economical process of recovering the total values in this exceptional ore is commercially possible now lies in the hands of expert mineralogists. Their assays and recommendations will be awaited with interest throughout Canada.

FOR RESTORATION WORK ON RANGE LANDS OF WEST

Ottawa.—Leonard B. Thomson, of the Alberta department of agriculture, Edmonton, has been appointed field husbandman with the federal department of agriculture; and Sydney E. Clarke, at present on the university staff at Rochester, Minn., has been appointed assistant agronomist. Announcement to this effect is made by the department of agriculture recently.

These appointments, which have been made by the civil service commission, follow representations made some months ago to the department by organizations representing the ranching interests of Western Canada that some experimental and demonstration work should be carried on by the government in range lands.

Such work, it was represented, was particularly necessary with respect to the rearing of abandoned homeless orphans of other countries. The study of varieties and reproductive peculiarities of grasses in grazing areas, forage crop problems for the ranchman, and the effects of deferred grazing in relation to the restoration of the carrying power of range land.

Mr. Thomson will make a study of cultural and other methods looking to the restoration of the range while Mr. Clarke will conduct a study of grass varieties and their habits. A comprehensive schedule of work has been laid out, which includes a preliminary survey of range lands in the west.

THE REGINA LEADER RUGBY TROPHY

At last an annual playoff for the Canadian junior rugby championship has become a reality. The materialization was aided by the donation of a championship trophy by The Regina Leader. Above is the first photograph of the trophy which is described as one of the finest pieces in any line of sport. The Regina Pats fell short of it by two points when they lost the 1935 final in Montreal two weeks ago to the M.A.A.A. team who therefore have the distinction of being the first holders. Presented through the C.I.F.U., it is to be a permanent trophy.

PLENTY OF CASH NOW AVAILABLE FOR INVESTMENT

Toronto.—There is in Canada today \$125,000,000 more money available for general business purposes than usual at this time of year. Sir John Aldred, president of the Canadian Bank of Commerce, said today: "There is plenty of money available to finance new undertakings needed for the development of Canada. The Dominion is in splendid shape to go ahead. Manufacturers, in practically all lines and commercial houses, in general have this fall reduced their indebtedness to an extent impossible for several years past. All the banks show the same thing—a great reduction in commercial loans and a big increase in bank investments in stocks and bonds."

Giant Meteor Falls

Flashes Across Sky in Brilliant

Ottawa.—In the opinion of Ralph Delroy, Dominion Government astronomer, an unusual phenomenon witnessed in the northern skies by Rev. E. G. May, rector of the Anglican Church at Chelsea, Que., and other residents of that district, may mean that a huge meteorite has dropped to earth some where in this district.

Rev. Mr. May saw a star or comet fully the size of the eastern star which blazed across the sky in a brilliant flaming, and disappeared over the rim of the hills, which were fully lit up by the reflection. After it had passed beyond the horizon formed by the hills, a narrow band of brilliant light remained visible for fully five minutes, to gradually disappear as though dispersed by wind.

Mennonites Returning

Are Not Satisfied With Conditions in Mexico, Say Members of Party

Montreal.—Mennonites are not satisfied with the conditions in the Rosario, Mexico, settlement, to which they emigrated on mass from Canada, and are returning to the Dominion, according to Hans Sieder, a member of a party of 250, who arrived here from St. John.

They are going to Mennonite settlements in Manitoba, Alberta and Saskatchewan.

Ottawa State Dinner

Ottawa.—The state dinner will not be held on the night of the opening of parliament. Announcement is made that the dinner will be held at a date to be announced later instead of on the night of the opening.

Country More Prosperous

Sir John Aldred, President of the Canadian Bank of Commerce.

Law Protects Younger Sons

All Share Equally in Britain When Father Dies Intestate

London.—The new act dealing with the administration of estates, the owners of which the intestate comes into effect in the New Year and is almost revolutionary in its effect. It abolishes provisions existing since the feudal days in Britain in connection with estates where the owners have no will and which furnished them without number for the authors of cheap novels and dramas in the Victorian days as the much injured younger son no longer will inherit his elder brother's share all the paternal acres.

The elder sons, under the new law, will possess no advantage over their younger brothers when the father dies without having made a will.

Another feature of the new act is that the preference of males over females which has been the law in connection with estates left by men who died intestate, is done away with. Henceforth, males and females of the same degree will rank equally in the division of the estate. The new act affects only the estates of those who died intestate. The act is intended to simplify the transfer of freehold land and houses where the owner dies intestate.

Winnipeg-Toronto Daily Air Service

Company Expects to Inaugurate Line About June 1

Dubufo, Pa.—Asked about the commercial air service which an organization he represents "as executive secretary plans to start between Toronto and Winnipeg, J. M. Clark said it was expected to inaugurate the line about June 1. He said the service probably would be inaugurated with the use of nine planes, all of a late type, makes one trip daily each way and carry both passengers and freight.

A WORLD-WIDE WHEAT SELLING PLAN IS MOOTED

Winnipeg.—The conference of Co-operating Marketing Associations, which was initiated by the Canadian wheat pools, and was first set for November 19 at Regina, Sask., and was postponed, will be held in St. Paul, Minn., Feb. 18, according to word received here. Four countries will be represented—Canada, the United States, Argentina and Australia. Great Britain may also send a delegate.

It has been intimated that at this conference a new step will be made to organize a world-wide wheat marketing association. It is understood that the Canadian wheat pools have been making a thorough investigation into the marketing situation in various countries and the results of the study will be placed before the conference.

Reports here state that the North Dakota Wheat Growers' Association will be largely represented at the conference, as well as the three Canadian prairie wheat pools.

Serious Floods in Roumania

Over Hundred Reported Drowned and Thousands Are Homeless

Vienna.—Thousands of persons are homeless; more than a hundred have been drowned and other hundreds are fighting for tree and house-top refuge, in the flooded Transylvania section of Roumania, according to dispatches from Budapest.

A sudden thaw, following a series of heavy snows, turned rivers into torrential lakes, overflowing large areas.

RAILWAYS PLAN TO ECONOMIZE ON OPERATION

Toronto.—A special dispatch from Ottawa to the Globe says:

"An important step in the direction of economy for the Canadian National and Canadian Pacific Railways by the elimination of needless and costly duplication of train service was announced by Sir Hon. C. P. Graham, minister of railways and canals, who stated that according to communications just received from Sir Henry Thornton and E. W. Beatty, K.C., the traffic and operating officials of the two railways have constituted themselves into a joint permanent committee to deal in a fair and broad way with all questions of competitive service to effect economy and preserve at the same time efficiency."

"Already the Canadian National has moved to suspend some trains in Ontario and in other parts of the country that are found to be a financial burden upon the taxpayers. The latest time table shows a number of such eliminations and it is estimated that the annual saving through this downward revision of train schedule will mean about \$900,000 to the Canadian taxpayers."

"It is understood that a similar move has been made by the Canadian Pacific, although not quite so drastic. With the new committee functioning, a few more trains in highly competitive regions such as those between Ottawa and Montreal and possibly in the west will be eliminated."

General Election Votes

More Electors Cast Votes in 1925 Than in 1921

Ottawa.—An analysis of the popular vote cast in the general election of October 29 reveals that approximately 71.1 per cent. of those persons on the electoral list exercised their franchise. In the 1921 general election the estimate was that 70.3 per cent. of eligible voters cast ballots. The popular vote of the election this year was 1,575,771. This is 357,707 more than the popular vote of 1921. It is assumed by electoral officials that the numbers on the eligible lists have not changed materially since 1921 when there were 3,435,310.

By previous lists some votes are as follows: In Prince Edward Island, 49,480 voters were cast to return four members to parliament; in New Brunswick, 151,565 votes to return 11 members; in Nova Scotia, 229,687 votes to return 14 members; in Quebec, 562,000 votes were cast to elect 55 members; in Ontario, 1,239,111 votes were cast to elect 82 members; in Manitoba, 165,956 votes were for 17 members; in Saskatchewan, 195,504 votes for 21 members; in Alberta, 269,609 votes for 16 seats; in British Columbia, 132,718 ballots cast to elect 14 members; in the Yukon there were 3,259 votes for one seat.

Bolshevik Troops Cross Afghan Boundary

British Foreign Office Is Watching Situation Closely

London.—Considerable importance is attached here to the recent crossing of the Afghan boundary by Bolshevik troops. Exact details are lacking, but it is understood that Soviet Afghan officers and many men were killed in an unprovoked attack by Russian border troops in a district always acknowledged to be part of Afghanistan.

The importance of the affair lies not in the fact that blood was shed, but in the circumstances that an essential part of Great Britain's policy regarding India is the absolute sanctity of all the Afghanistans and other northern frontiers. Cable newspapers report that bitter indignation exists among the people of Afghanistan.

It is an open secret that the Soviet authorities regard the desolate mountainous Afghan frontier as their pivot to India and for this reason the British foreign office is watching the situation closely.

Extend Quota Law

Montreal.—According to Consul-General Harry Landis, of the United States immigration office here, there is a strong movement on foot both in Canada and the United States, to make the quota law apply to both Canada and Mexico, the same as to other countries.

Montreal Had Rough Trip

St. John, N.B.—The worst weather that the Canadian Pacific liner Montrose has faced in her thirty-eight year voyage across the Atlantic was the gale of officers of this liner, but arrival here from Liverpool.

INTER-RELATIONSHIP
BETWEEN ECONOMIC
AND SOCIAL STRUCTURE

One aspect of the complexity of modern economic life is the close relationship between the problem of ownership and the problem involved in the modern idea of the family. The decreasing size of the family unit is producing economic consequences which are only now beginning to be recognized. No longer does the single household contain the grandparents, the parents and the young workers. Decreasing mortality rates produce an ever-increasing proportion of old people who are unable to find positions which will enable them to support themselves entirely from immediate earnings. Modern medical science is prolonging life, industrial operations are carried on at a speed demanding youth, and interesting economic adjustments are taking place, which supply the needs of a generation from the general social income, rather than from the immediate earnings of the children. Yet few people realize the close relationship between this problem and the problem involved in large scale financing.

Among the outstanding examples of the process of financial adjustment which is aiding society to meet this change in the family unit, we might mention the great increase in the volume of savings, the tremendous volume of endowment insurance, and both nation-wide and private company "old age pension" plans. But the movement is of such importance that these developments take care of only a limited proportion of the individuals concerned. The greatest development has been in the direction of making all members of our capitalist society capitalists. Customer ownership, the employee ownership movement, the floating of \$100 and \$5000 bond issues, are all steps in the recognition of the fact that the whole public may become an investing public. The great progress that is being made toward encouraging widespread and public ownership of industry is just as significant an economic change adapting society to this new family relationship, as is the decreased size of the individual house and the widespread development of hotel and apartment life. There can be no disturbing bolshevists in a society where all members feel that it is to their interests to support the existing social order, and where there is no longer any group of whom the word "proletariat" is descriptive. Yet the outstanding factor in this situation is the steadily increasing necessity for securing widespread public confidence in the financial structure which, on the one hand permits large scale production, and on the other hand supplies the needs of the increasing group of non-producers.

BRITISH INDUSTRIES FAIR

The British Industries Fair, the largest annual trade fair in the world, is to be held simultaneously at London and Birmingham from 30th to 31st February, 1926. Different groups of trades will be shown in each city. This is not to be confused with the British Empire Exhibition, now closed. It is a buyers' fair, and is organized by the British government department of overseas trade and the Birmingham chamber of commerce. Practically all the important industries will be represented.

Invitations to the fair have been sent to 150,000 buyers in various parts of the world. Canadian manufacturers will exhibit in a special section, which is being organized by the Canadian chamber of commerce in London. In past years, buyers from all parts of the world have attended the fair. It is anticipated that many Canadian buyers will attend as usual.

The clothing and allied trades will exhibit for the first time. This is essentially a trade fair, but in response to the requests of the majority of exhibitors, the public will be admitted during restricted hours. It surpasses in size and diversity of products all the Continental trade fairs. Information required by intending exhibitors or buyers can be secured from the four British government trade commissioners in Canada, at Montreal, Toronto, Winnipeg and Vancouver.

TOO MUCH MIND OF HIS OWN

(By Dr. C. M. Hincks, Medical Director, Canadian National Committee for Mental Hygiene)

The pouting, sulky, obstinate child who harbors grudges and bears malice is seriously handicapped. These qualities should be studied and corrected, for if they are allowed to grow they develop hatred and suspicion—always leading to unhappiness.

Sometimes the simplest way to manage an obstinate child is to face him with his own problem. A woman, remarkable for her intelligence and poise, told me that when six years of age she overheard her parents seriously discuss her future. She had indulged in a fit of obstinacy that day and nothing could shake her out of her sulky silence. They were worried for they foresaw a long life of disaster if she retained the undesirable habit.

She listened, saw the point, and she, herself, began to control the unfortunate tendency. The unusual part of the incident is that she was very young. We too often minimize the intelligence of children, failing to see they listen to reasonable arguments, even when a few years old. Certainly, it is wise to compel the older child to face for himself squarely and honestly the problem of obstinacy.

JUSTICE

Through a charge unjustifiable, a respectable resident of Bellevue was this week put to an expense in the neighborhood of fifty dollars. Can any human being conceive a greater crime?

Parliament meets at Ottawa today. Our member, Mr. Cooté, is in attendance.

OUR FRIEND THE COW

(From the Baltimore Sun)

The cow is a female quadruped with an alto voice and a countenance in which there is no guile. She collaborates with the pump in the production of a liquid called milk, provides the filler for hash, and at last is skinned by those she has benefited, as mortals commonly say. The young cow is called a calf and is used in the manufacture of chicken salad. The cow's tail is twisted left and has a universal hook. It is used to disturb marauding flies and the tassel on the end has a unique educational value. Persons who milk cows and come often in contact with the tassel have vocabularies of popular and impressive force.

The cow has two stomachs. The one on the ground floor is used as a warehouse and has no other function. When this one is filled the cow retires to a quiet place where her rumblings will occasion no comment and devotes herself to belching. The raw material thus conveyed for the second time to the interior of her face is pulverized and delivered to the auxiliary stomach, where it is converted into cow.

The cow has no upper plate. All of her teeth are parked in the lower part of her face. This arrangement was perfected by an efficient expert to keep her from gumming things up. As a result she bites up and gums down.

The male cow is called a bull and is lassoed along the Colorado, fought south of the Rio Grande and shot in the vicinity of the Potomac.

A slice of cow is worth 8 cents in the cow, 14 cents in the hands of packers and \$2.10 in a restaurant that specializes in atmosphere.

A slice of bull is worth about 4 cents on the hoof, 15 to 20 cents in never-slip sausages, and about \$1,000,000 on the floor of congress.

THE SMALL TOWN PROBLEM

The problem of the small town merchant has of competing with the city merchant in these days of long trips by autos has aroused keen interest everywhere in Canada and the States.

A town in New York, located between two large cities, has solved the problem by a system of co-operation that is unique. Instead of competing, stores have adopted the idea of all becoming specialists in one line. The man who formerly handled clothing and shoes, now has only shoes, and consequently can carry a better stock and attract trade to his place from a wider area.

In the matter of overhead expenses, the small town merchant is much better situated than his city rival. He can have a larger and better display room for his wares at much less expense than the city merchant, and if he takes advantage of the facilities at hand and offers the advice he has at his disposal, he can easily make the city merchant sit up and take notice.

The small town man has another advantage, and one that cannot be overlooked. He has more opportunity to know personally every one of his customers. He knows what this one and that one prefers, and can arrange his stock accordingly.

Perhaps the matter is not so one-sided as it seems. It may be that eventually the city man may have to look to his fences.—Ex.

TRANSIENT TRADERS

At the convention of the Union of Alberta Municipalities, held in Calgary at the Palliser hotel on December 3rd last and at which about eighty representatives were present, a resolution was passed: "That the Government of the Province of Alberta be petitioned to amend the existing statutes relative to the 'Foreign Companies' Act or Transient Traders' so that the Municipality shall be entitled to impose a license fee, for revenue purposes, under its by-law, on the agents or representatives of any company peddling goods within the municipality, unless such company shall have an agent or representative resident in such municipality and regularly carrying on business as a merchant therein."

This resolution should have the favorable consideration of the government on its presentation as the suggestion contained therein has been a source of local protest and dissatisfaction by merchants of nearly all of the towns and villages of the province for years past. The regularly established merchants of these towns and villages are annually assessed for business taxes for the privileges of doing business in their locality, and yet are weekly subjected to the opposition of transient traders who, working under a nominal provincial tax protection for such purposes, solicit business in their locality to the detriment and harm of the local tradesmen. Instances of such are regularly called to the attention of this office to air the nuisance but we are informed that, under the present Provincial act, nothing can be done locally to stop the evil. It is therefore hoped that this resolution above mentioned will receive favorable consideration and sanction and thus allow the different municipalities to handle such cases as they effect them locally.—Ex.

A MERCHANT'S
CHRISTMAS DREAM

Last evening I was talking
With a merchant aged and gray,
When he told me of a dream he had.
I think 'twas Christmas Day.

When snoozing in his office,
The vision came to view;
He saw an angel enter, dressed
In robes to white and new.

Said the angel "I'm from heaven.
The Lord just sent me down
To bring you up to glory and
Give you a golden crown.

You've been a friend to everyone,
And worked hard night and day;
You've supported many thousands
And from few received your pay.

So we want you up in glory,
For you have labored hard,
And the good Lord is preparing
Your eternal job reward."

Then the angel and the merchant
Started up to glory's gate;
But when passing close to heaven
Heard the angel-murmur "Wait!"

I've a place I wish to show you—
It's the hottest place in hell,
Where the ones who haven't paid you
In torment forever dwell."

And, behold, the merchant saw them,
His old patrons by the score,
Grabbing up a chair and fanning,
Though he wished for nothing more.

He desired to sit and watch them,
As they'd sizzle, singe and burn;
And his eyes would rest on debtors
In whatever way he'd turn.

Said the angel, "Come on, merchant,
There are pearly gates to see!"
But the merchant only muttered:
"This is heaven enough for me!"

An Ulster man and a Cork farmer
Were disputing on religious matters.
The farmer concluded the conversation
and the argument with this:
"If you say that we are all as
good as one another, how is it that
St. Paul wrote all them long letters
to the Romans and divil a wan to the
Protestants?"

This appears to be a bad time for the Smiths. Peter, ex-provincial treasurer of Ontario, is now in prison; Geo. P., former minister of education in Alberta, is on trial for theft, and another Smith is in the B.C. courts. The Blairmore brand of Smiths, however, seem to be leading honorably through the straight and narrow path.

Employees of the Consolidated Mining & Smelting Company, Kimberley, are receiving bonuses for 1925. All married employees with one or more years' service to their credit with the company get \$50; those with less than one year service to their credit \$25. Single men are getting \$25 and \$12.50, respectively.

CUTICURA HEALS CHILD'S ECZEMA

On Face In Red Pimples, Itched and Burned Terribly. Lost Rest.

"When my baby was six months old eczema broke out on her face in small red pimples. It itched and burned terribly causing her to scratch and she was very cross. She lost her rest at night, and her face was disfigured. I sent for a few samples of Cuticura Soap and Ointment and purchased more, and after using two cakes of Cuticura Soap and one cake of Cuticura Ointment she was completely healed. (Signed) Mrs. Mary McDonald, Box 12, Arden, Nova Scotia.

"Cuticura Soap, Ointment and Tablets are all you need for skin ailments. Bathe with Soap, soothe with Ointment, dust with Tablets. Cuticura Soap, Ointment and Tablets are sold everywhere. Price, 25c. Cuticura Soap, Ointment and Tablets are sold everywhere. Price, 25c. Cuticura Soap, Ointment and Tablets are sold everywhere. Price, 25c.

Slightly Salt Water

Prevents Exhaustion

Miners Can Endure High Temperature by Drinking Water Containing Salt. How a pinch of salt in the drinking water prevents the exhaustion of workers in hot coal mines and steel plants was told before the Institute of Mining Engineers in London by Sir John Court recently. A similar discovery was made by Prof. Neville Moss, of the University of Birmingham. He found miners who succumbed rapidly when working in a temperature of about 100 degrees were able to endure it better when their drinking water contained even one-fifth of one per cent. of salt.

Dr. J. S. Haldane, an English physiologist, explains that during work at a high temperature the body gives off much perspiration and this causes a loss of salt. The depletion of salt, the physical exhaustion is partly due. The addition of salt in their drinking water makes up for the loss.

For Sore Throat

himself a hole deep in the snowdrift and passed the remainder of the night in uneasy slumber.

With the first light of day Barre resumed the trail. He was not so alert this morning. There was the disconcerting drop to his tail which the Indians call the "kiss-of-death." The knowledge of his hole deep in the snowdrift and the fact that he had been seen by the Indians, which he had not intended to do, made him feel that he was in a bad way. He was now a prisoner at the end of a steel chain.

There were plenty of rabbits in Barre's traps, and Barre did not go hungry. He reached the second trap-line cabin late in the afternoon, after ten hours of travelling. He met with no very great disappointments here, for he had not anticipated very much. The snow had banked this cabin even higher than the other. It lay three feet against the door, and the window was white with a thick coating of frost.

At this place, which was close to the edge of a big barren, and unsheltered by the thick forests farther back, Barre had built a shelter for his firewood, and in this shelter Barre made his temporary home. All the next day he remained somewhere near the end of the trap-line, hunting the edge of the barren and investigating the short side line of a dozen traps which Barre and Nepeese had strung through a swamp in which there had been many signs of lynx. It was the third day before he set out on his return to the Gray Lion.

He did not travel very fast, spending two days in covering the twenty-five miles between the first and the second trap-line cabins. At the second cabin he remained for three days, and it was on the third day that he reached the Gray Lion. There was no change. There were no tracks in the snow but his own, made nine days ago.

And then, of a sudden, Barre made a change. He spent a night in the "kiss-of-death." After that, whenever he was at the Gray Lion, during the day he always slept in the tent. The two blankets were his bed, and they were a part of Nepeese. And there, all through the long winter, he waited.

If Nepeese had returned in February and could have taken him anywhere, he would have found a changed Barre. He was more than ever like a wolf; yet he never gave the wolf-howl now, and always he snarled deep in his throat when he heard the cry of the pack. For several weeks the old trap-line had supplied him with meat, but now he was hunting for it, and he was not so sure of it. The time, in and out, was scattered with fun and hopes.

Mrs. Laura Henderson

Photo by Cousin

Sarnia, Ont.—"In young motherhood Dr. Pierce's Favorite Prescription has been of great benefit to me as a tonic and service. Whenever I feel in a rundown, nervous condition, a bottle of the 'Prescription' tones up my entire system quicker than any other medicine I have ever taken, and it keeps me well. I heartily recommend this medicine to women who are in a debilitated condition. It is a safe and reliable tonic and nerve, always dependable."—Mrs. Laura Henderson, 224 Cottlerbury.

Health is most important to every mother. You cannot afford to neglect it when your neighborhood drug store supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Laboratory in Bridgeport, Ont. Send 10c there if you wish a trial package.

Once alone—he caught a young deer in deep snow and killed it.

(To be continued)

Mystery of Mars

Dominion Astronomer Does Not Believe That Sister Planet Is Inhabited. Dr. Frank B. Rowland, director of the astronomical observatory of the Dominion Government at Ottawa, does not believe there is any human or near-human population on Mars. Nor does he believe that any of the other solar planets are inhabited. Dr. Rowland expressed these views in the course of an illustrated lecture on "The Planets and Our Unknown Worlds" before the members of the Alliance Francaise at Montreal. Dr. Rowland expressed doubt as to the canals of Mars being canals at all, although admitting that he had seen, himself, ten of those peculiar lines which Lowell enthusiastically proclaimed to be canals, linking Martian oceans together.

Natives Gradually Become White

People of Underground City in Abyssinia Change Color. Mrs. Rosita Forbes, English woman explorer, whose last expedition was to Abyssinia where she visited the Troglodyte city of Lalibella, arrived in New York with a story of how the natives of the city were gradually becoming white from living underground. She said they already had become gray haired. The natives, she said, carried the underground homes into the solid rock, reserving the upper levels for their temples and the lower ones for homes. The religion of the people is Christian, although they have retained their ancient customs. There are eleven underground churches. There are 11,000 natives living in this city.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them. Welcome them as speedy easers of pain, because they promptly remove the cause of the trouble. The child, and thus the suffering of the child is relieved. With so sterling a remedy at hand no worm should suffer an hour from worms.

Will Not Disturb King

Princess Mary's Son Cannot Take Noisy Toys to Buckingham. Queen Mary believes in useful Christmas gifts, but this year she departed from her usual custom and purchased a drum and a bag for her grandson, Prince George Herbert, eldest son of Princess Mary, Viscountess Lascelles. Henry George Herbert, nearly three years old, received the presents on Christmas morning, with the distinct understanding that he was to play them in the morning, at home wherever he goes to Buckingham Palace to visit his grandfather, the King.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Was a Regular Patient

Boy Broke Leg and Both Wrist Within a Week. A nervous boy came into the Broad Street Hospital the other day to be treated for a broken wrist. A doctor fixed the boy up and told him to come a week later. The next day the kid showed up again, when the doctor happened to be very busy. The doctor was about to chase him out, when he exclaimed: "I'm sorry, doctor, but I broke the other one." The doctor fixed that. "Come next week," he said. But two days later an ambulance brought the kid in. He had broken his leg. "He stays at the hospital now. And I suppose that in the meanwhile the old compensation keeps piling up."—New York Evening World.

Wheat Production in North. Northern Alberta's importance as a grain growing area is increasing from year to year. So far this season's wheat moved over the Edmonton and Dunsmuir lines is close to the million bushel mark.

Sweet Young Thing—"You say they make paper from trees? That's a funny looking tree over there."

Lumberman—"Yes, it'll be a funny paper some day."

There is one good thing about the man with trouble on his mind. He never breaks into your office humming jazz tunes.

Minard's Liniment for frost-bites. Visitor: "I suppose you know all the ins and outs of this place?" Native: "Yes, I know all the ins!"

Ships Lead To Detection

Very Many Criminals Make Mistakes That Betray Them. After eluding the police for years, even the most astute criminal will bring about his own arrest by making just one little slip. Less gifted crooks often give themselves away. An instance has recently come to hand, says a London writer. The police had been baffled by a murder until they chanced to examine the hat of the victim. Inside the band, to make the hat fit better, was a piece of paper. This proved to be a court summons made out to another man. He was questioned and his guilt established. In his hurry to get away from the scene of the crime he had taken his victim's hat for his own. One crook betrayed himself by the way he carried off his plunder from a West End mansion. Among the spoils were two silver inkstands. They left a trail of ink half a mile long, which led the police to them. Crime and its detection is a highly scientific business, and in it, as in everything else, there's many a slip.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy. The new sales tax will not increase the price of the little one's Own Tablets, for the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Let the peace of God rule in your heart.—Col. III, 15. We ask Thy peace, O Lord! Through storm and fear and strife, To light and guide us on, Through a long, struggling life. —Adelaide Anne Procter.

Would you know the peace of God, realize that you are a part of that infinite Majesty. Strive to catch now that hint of the heavenly reality, chant a short chord of the infinite harmony; remember that every thing beautiful springs from the beauty that is behind it, every strong will rises from a strength underneath, and your love is fed from the fountain of infinite love. —Jemima Lloyd Jones.

For Rheumatic Pains.—The pain and achiness of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

We blame our faults on our ancestors, just as they blamed their faults on their ancestors.

Tides are 54 minutes later each day.

FOR Colds

Immigration Figures

Canadian Are Returning To Canada From U. S. In Large Numbers. The annual report for the fiscal year ending June 30th, 1925, of the commissioner-general of Immigration of the United States, shows that Canadian emigration to the United States was only half of what it was in the previous year. At the same time the figures of the Canadian department of Immigration and Colonization show that between April 1st and October 31st, 1925, 21,275 Canadians who had gone to the United States, declaring their intention of making permanent residence there, returned to the Dominion after being away more than six months.

Practical Dorothy

Little Dorothy, five years old, was visiting a neighbor, a widow. Lunch time came and "will you stay, Dorothy?" Dorothy would not. "When the old lady said Grace, Dorothy asked what she was doing. "Why, little girl, I am thanking the Lord for what He has given me to eat." "Huh," said Dorothy. "We don't thank Him and we got lots more to eat than you."

A Tonic of Rare Value SCOTT'S EMULSION OF PURE COD-LIVER OIL

Rich In Vitamins Rebuilds Strength. To Experiment On Animals. The hope of the future in attacking the problem of the cause and cure of cancer lies entirely in the field of animal experimentation, according to Dr. William H. Welch, director of the Johns Hopkins School of Hygiene and Public Health, who addressed a joint meeting of the Baltimore city medical society and the Maryland cancer committee in Baltimore.

One of the happiest and most care-free days which the Prince of Wales enjoyed during his tour of South America was spent on the great "Oxo" cattle ranch in the Argentine.

CHILLS!

Are the forebodings of an early cold and grippe? Rub the chest and back with Minard's. Balm has the feet in Minard's and hot water.

Calgary Brewing & Malting Co., Limited
Calgary, Alberta.
JOHN BELL—AGENT.

This advertisement is not inserted by the Alberta Liquor Control Board or the Government of the Province of Alberta.

Items of Local and General Interest

Some men are known by their deeds; others by their mortgages.

Mr. and Mrs. C. Skewen and children were in from the South Fork over Tuesday.

Mr. C. A. Davidson, the provincial highway commissioner, was in town a couple of days this week.

A daughter arrived to Mr. and Mrs. H. L. Devlin at the Van Harn hospital, Lethbridge, on January 4th.

Rev. W. Barlow, lately of the Yukon, will preach at St. Luke's church on Sunday morning at 11 o'clock.

The next and final session of the Alberta legislature before dissolution will probably be called early in February.

Twenty years ago, our present federal member, Mr. G. G. Coote, returned home to Nanton from his honeymoon trip.

Alphonse Fabro, of the Otis-Staples Lumber Company staff at Kimberley, was down to spend Christmas with his parents here.

The second of a series of dances being staged by the Blairmore Assembly Club, takes place at the Greenhill Grill on tomorrow (Friday) night.

Mr. A. L. Smith, K.C., of Calgary, will be associated with Mr. K. G. Craig in defense of the appeal of the Cosmopolitan hotel, to be heard on Tuesday next.

Miss Julia Dutil, daughter of the chairman of the Blairmore school board, left here a few days ago to take up high-school studies in the convent school.

Miss Kathleen Tompkins and Miss Chardon returned to Calgary Monday night, where they re-entered upon their studies after spending the Yuletide with their parents here.

As will be seen by an advertisement elsewhere in this issue, tenders for the gravelling of the new trunk highway from Burns to the east boundary of Coleman are being invited.

Twenty-one priests participated on Tuesday in the most notable funeral service in Nelson's history, when the clay of Very Rev. John Althoff, vicar-general and beloved priest of Nelson, was given solemn and affectionate burial.

For an ideal sheet of hockey ice and three excellent sheets of curling ice, we think that the Blairmore arena, takes the cake. Mr. James Ringland, the new ice-man, is sure keeping up to his reputation as the best ice-maker in Alberta.

Jackie Connolly, center for the Minneapolis Rockets the past two years and formerly with Blairmore in the Crows' Nest league, has been released. Failure to live up to training rules prompted the Minneapolis coach to drop Connolly from the lineup.

The case against a prominent citizen of Bellevue, charged before Magistrate Gresham with operating a car while under the influence of liquor, was dismissed as there was not sufficient evidence to justify the charge. Mr. Gillis, of Gillis & Mackenzie, defended the accused.

At the regular meeting of Livingstone Lodge, Knights of Pythias, tomorrow night, the officers for the ensuing term will be installed. In all likelihood, Bro. Jack R. Woods, of Coleman, the provincial grand chancellor, will be present. The officers of Greenhill Temple will be installed same evening and refreshments and a social evening will follow. All members of both lodges are urged to be present and visitors will be made welcome.

J. W. McDonald, K.C., of Macleod, was a Blairmore visitor yesterday.

The new Elks' hall at High River was officially opened on New Year's Eve.

Jack Nutting, of Walkerton, Ontario, is visiting here with W. M. Bush.

Charlie Howe returned to his studies at the Technical school, Calgary, on Sunday night last.

Miss Vanda Mackenzie arrived here on Sunday last to take a position on the Blairmore teaching staff.

The word fight finds a place in many a newspaper nowadays, even in accounts of marriages ceremonies.

J. W. Wallace, D.S.O., eyeglass specialist, will be at the Blairmore Pharmacy on Saturday, January 9th.

Clarence Reddick, of the Coleman Sheiks, received a slight injury to his eye in the game at Lethbridge on Tuesday night.

Coleman Juniors lost to the Lethbridge Senior Vets on Tuesday night at Lethbridge by the narrow margin of two to one. A peppy game is reported.

Franklin Bush, son of Mr. W. M. Bush, who is a student in a Chicago university, recently underwent two operations, on an eye and the appendix.

The Coleman Juniors will be the guests of the Blairmore team on the local arena Tuesday night, the 19th. Don't miss this game, which is sure to be a whirlwind.

Adding insult to injury is just what is happening when the Blairmore Board of School Trustees attempts to belittle the high school inspector by asking for a special inspection.

An auction sale of liquor permits for 1925 took place a few days ago. Some of these documents fetched as high as a thousand marks—and honest to goodness we saw one with almost a thousand marks on it!

Revenue from auto licenses in Alberta during the year just closed has totalled \$955,000. The number of autos for which licenses had been issued up to November included 53,350 passenger autos, 478 liveries, 2036 motor trucks and 381 motor cycles.

Mr. Dempster, of the vendor store staff, lost a gold watch last night while returning home from the curling rink via the short cut to the west end. Finder will be suitably rewarded upon leaving same either at the vendor store or Greenhill hotel.

Mr. E. D. Battum arrived here Monday morning and is this week conducting a special audit of the books of the town, dating from December 31, 1920. This audit was made necessary over apparent discrepancies in connection with the sale of town lots.

The following have been appointed official auditors for the year 1926: Harry Clements and W. A. Alexander, Fincher Creek; John Jack, M. A. Murphy, M. G. Smith, George C. Wilton, Hugh Victor Hildidge, Cowley; John Brooks, Bellevue; Louis Dutil, Arthur J. Kelly, Blairmore; Patrick Dujay, Hillcrest; Alex. M. Morrison, Joseph Emerson, Coleman.

In view of the fact that the inspector's report on the high school "cannot be published in a newspaper," we would advise ratepayers to avail themselves of the privilege afforded them of calling at the secretary's office and seeing that report, or else put in an appearance at the annual meeting of the ratepayers of the school district, which is in all likelihood will be held on or about January the 25th or 26th.

Kenneth Ringland, of Macleod, spent Saturday last with his father here.

Occasionally one meets a man whose mind is so weak that it can't even wander.

We regret to state that Mr. W. H. Chappell is still confined to his home here through illness.

Reva, P. J. N. Cosman and N. A. McCormick motored to Macleod and back on Monday afternoon.

Mrs. H. J. Percy accompanied her husband here from Innisfail last week and remained several days.

The regular monthly meeting of the I.O.D.E. will be held in the Greenhill parlor on Monday next at 7.30 p.m.

Two little boys got into a scrap the other day and quit when one shouted that he would knock the other guy as flat as father's purse after Christmas.

A new play, a dramatization of "Blairmore's Kangaroo Court," is to be staged soon in Chicago for the benefit of the world's worst criminals.

One thing is certain—it ain't the bigger prospects of getting tight that is responsible for so many new Scotch families deciding to come to Alberta.

A Philadelphia paper carries an ad worded this way: "We are burning this coal at home and at our office, together with over 600 satisfied customers."

Howard Anderson, who sustained a broken rib during the hockey game at Bellevue last week, was able to accompany his team to Blairmore on Tuesday night.

The plant of the Star Bakery was recently purchased by Percy Brothers, of Innisfail, and was last week end shipped to Ponoka, where they intend to establish a baking business.

We understand that Inspector Field, R.C.M.P., has practically recovered from his recent critical operation performed at Rochester and shortly will be back at headquarters at Fernie.

The First Aid classes will resume tomorrow (Friday) night in the United church clubroom. Enrollment has now reached 56—twenty-two adults and thirty-three boys. Classes were discontinued through the holiday season.

By 1927 the Alberta government hopes to complete its present main highway program, calling for an expenditure of \$3,500,000, by which a grand total grant of \$1,500,000 will have been earned from the federal highway fund.

The institution of the new Elks' lodge at Fincher Creek takes place on January the 26th. It is expected that Calgary, High River, Nanton, Vulcan, Staveland, Claresholm, Granum, Lethbridge, Coleman and Blairmore lodges will be represented at the meeting.

Fire started by a match dropped by a lad riding through on horseback near some brush on the Butte Ranch, South Fork, on Sunday last, came near gaining large proportions. A band of neighbors assisted in fighting the flames, which burnt over nearly quarter of a section and in its path licked up a stack of hay valued at about three hundred dollars.

A copy of the Christmas Number of The Blairmore Enterprise has been received. It is well gotten up and reflects a great deal of credit on Editor Bissett for the elaborate and attractive work, and on the citizens of Blairmore who, by their very generous advertising patronage made such an excellent and expensive edition possible.—Staveland Advertiser.

A daughter was born to Mr. and Mrs. F. T. Campbell at Roseland, B. C., on December 10th. Mrs. P. Patterson, of Blairmore, mother of Mrs. Campbell, spent a few weeks with her daughter following the new arrival.
